MZD CLUB TIP JAR

I work as a DJ on SL, and I found it difficult to get a tip jar that did everything that I needed and also looked good, so I decided to design and script my own.

I'd like to think that my Tip Jars can do just about anything that you would require from a tip jar. I sell a couple of different ranges of tip jar's because not everyone needs the same functions, so please look at my full range to see what's available.

First and foremost, all my Tip Jars are "Rez 'n Go", so you have no need to change any of the settings to use them.

However, you can personalise all my jars to suit your personal requirements. No Scripting is necessary, most changes can be made through the jars menu system and the rest using a note-card

All Tip Jars are copy and mod, so you can make as many as you like and adjust their size, so you can have different settings for different clubs etc.

All tip jars with changeable textures come with 6 default textures, but you can of course, use your own by dropping one in the Tip Jar Inventory.

***Note:** Not all jars have the facility to change texture, certain designs do not have this feature enabled. Please check individual designs to see availability.

Tip Jar Features:

- Menu Driven
- Displays jar user's profile picture*
- Displays your club logo when no-one is logged in*
- Choose your tip jars name
- Full stats on the tips you have received
- 6 Different particle effects when tip received
- Turn on and off Rotation
- Change the hover text colour
- Select what tip information you want displayed
- Personalise tip message
- Send a private message to tipper
- Group Joiner Button
- Link to a website
- Hand out Landmarks, Note-cards or Free Gifts. (Any two of these)
- Display the current music track from a SHOUTcast stream
- Announce in local the current music track from a SHOUTcast stream
- Split Tips Option
- Group Login to Jar

If you would like to see any features added, please let me know and I will certainly look at including it in any future versions.

If you have any problems or questions, please drop me a note-card, which describes exactly your problem and how it occurred and I will contact you.

Thank you for your interest in my designs.

MZD CLUB TIP JAR

First and foremost, all my Tip Jars are *"Rez 'n Go"*
so you have no need to change any of the settings to use them!

However, if you want to customise your tip jar there are several ways that you can do this easily and no Scripting is necessary, all changes are made through the jars menu system or the Note-card. I hate buying something in Second Life which doesn't have full and complete help documentation, so I enclose all the information that I think you need to use your tip jar. However, since your jar is "Rez N Go" you don't have to adjust any settings before you use it.

I suggest you rez your tip jar and test it before you change anything. Touching the jar will bring up your "Admin" menu and if you go into "Jar Config" most day-to-day configuration can be made there. Please find some time to set-up your tip jar before you work, as all settings are best changed when not in use. My Tip Jars are copy and mod, so you can make as many as you like and adjust them so you can have different settings for different clubs etc.

PLEASE REMEMBER:

Save any changes you have made to the tip jar by "Taking" it into your inventory after you have finished.

If you have any problems or questions, please drop me a note-card or an email, which describes exactly your problem and how it occurred and I will contact you.

*Note: Not all jars have the facility to change texture, certain designs do not have this feature enabled. Please check individual designs to see availability.

TIP JAR CONFIGURATION MENU

MZD CLUB TIP JAR

USAGE

Using Your Tip Jar

To use your Tip Jar is easy:

1. Rez the Tip Jar where you want to use it
2. You will receive a notification to take money, click on the GRANT button.
3. Wait for the Configuration to load (10-15 sec)
4. You will receive a confirmation when your Tip Jar is configured and ready to accept payments

[Top]

Viewing Who Has Tipped You

All your tip notifications are sent to you as private messages in Local chat. However, sometimes (especially in busy clubs) you maybe busy and you miss a tip coming in. Your MZD Tip Jar has a "List Tippers" function in your "Admin" menu function.

Access as follows:

1. Touch the jar
2. Press "Admin"
3. Press "Tippers"
4. You will now see a list of recent tippers and the amounts they gave you
5. If you click on "Clear", you will clear this list, or click on "OK" to come out of this list

[Top]

Resetting The Tip Jar Totals

Should you want to reset your jar for any reason, (zero the tips total and remove all tippers), you can do this without re-rezzing the jar. Please be aware that when you do this, you reset all Tip counts and name lists to zero. Your tips will automatically be reset to zero each time you rez your jar.

Reset as follows:

1. Touch the jar
2. Press "Admin"
3. Press "Reset All"
4. Confirm the reset by clicking "Yes Reset"
5. The jar will now reset

[Top]

Naming Your Tip Jar

By default your Tip Jar will be automatically be named as *"Your First Name's Tip Jar"*, so if it were my jar it would be named *"Marcus's Tip Jar"*. If you wish to change your Tip Jar name to something different, then simply do the following.

To name your tip jar:

1. Rez the Tip Jar
2. Wait for the Configuration to load (10-15 sec)
3. Right click and select "Edit"
4. Select the "General" tab
5. Enter your chosen Tip Jar name into the "Name:" field
6. Close the "Edit" window
7. Right click and select "Take"

Your tip jar is now renamed and in your inventory.

Adding Your Club Logo Texture*

*Note: Not all jars have the facility to change texture, certain designs do not have this feature enabled. Please check individual designs to see availability.

Your Tip Jar can use your club logo as a texture when no-one is logged on. To do this all you need to do is drop your club texture into the tip jar inventory.

To do this:

1. Right click on your tip jar and select "Edit"
2. Select the "Contents" tab
3. Drag your club logo texture from your Inventory to the jars "Contents"
4. Close the "Edit" window
5. Wait for the Configuration to load (10-15 sec)

[Top]

Tip Jar Rotation

Your Tip Jar can rotate when in use.

To turn this function on or off, do the following:

1. Touch your tip jar
2. Click on: "Admin"
3. Click on: "Jar Config"
4. Click on: "Jar Rotation"
5. Select "Rotate On" or "Rotate Off" as required

[Top]

Change Hover Text Colour

You can change the colour of the text that appears over your tip jar.

To change this do the following:

1. Touch your tip jar
2. Click on: "Admin"
3. Click on: "Jar Config"
4. Click on: "Jar Text"
5. Select your text colour

[Top]

M₂D CLUB TIP JAR

CUSTOMISATION

Change Tip Information Displayed

You can change what tip details you want displayed over your tip jar. For example, some users prefer to hide the total tips received as it can impact on tips received if you have earned a high amount of tips.

To customise this information, do the following:

1. Touch your tip jar
2. Click on: "Admin"
3. Click on: "Jar Config"
4. Click on: "Tip Display"
5. The buttons displayed will allow you to turn on or off the following:
   - List On/List Off
     - This Displays a list of your last 3 tippers names
   - Recent On/Recent Off
     - This displays the highest of your last three tips
   - Total On/Total Off
     - This displays the total of the tips you have received
   - Last On/Last Off
     - This displays the name and amount of your last tip

Change Or Turn On/Off Particle Effects

You can change the particle effects of your Tip Jar, or turn them on or off using the menu system.

To change this do the following:

1. Touch your tip jar
2. Click on: "Admin"
3. Click on: "Jar Config"
4. Click on: "Particles"
5. To turn on or off particle effects click on the "Part. On" or "Part. Off" buttons
6. To change the particle effect that is used when tips are received, choose from the list displayed

M ZD CLUB TIP JAR

MESSAGES

Changing Your "*Thank You*" Messages

Your Tip Jar has two *Thank You* messages that you can customise. These are used whenever a tip is received. There is a public message (seen by everyone on local chat) and a private message to your tipper (seen by tipper only in local chat).

To customise, you need to simply edit the "Config" note-card in the Tip Jars inventory.

To do this, do the following:

1. Right click on your tip jar and select "Edit"
2. Select the "Contents" tab
3. Open the "Config" note-card you will find there

You now have 3 parts that you can change:

The *Public Message* is split into two parts, the main *Thank You* and a 2nd part (added after the tippers name). If you don't want to use the 2nd part, then just leave blank.

The *Private Message*. This is sent to the tipper in local, but no-one else can see it. Again, if you don't want to use this, then just leave set to "DISABLED".

Public Message

1. Find the line that starts "LocalMessage="
2. Change the message after the "=" to your preferred message (When doing this, do not leave a gap after "="). **Note:** The tippers name appears **after** this message, so if you add "Thank you so much for that great tip", if I tip you, it would appear as "Thank you so much for that great tip Marcus Zenoria !"
3. Find the line that starts "LocalMessage2="
4. Change the message after the "=" to your preferred message (When doing this, do not leave a gap after "="). **Note:** The tippers name appears **before** this message, so if you add "You Rock !", if I tip you, it would appear as "Thank you so much for that great tip Marcus Zenoria ! You Rock !"

Private Message

1. Find the line that starts "PrivateMessage="
2. Change the message after the "=" to your preferred message (When doing this, do not leave a gap after "=")

When finished editing your *Thank You* messages:

1. Click on the "Save" button on the note-card
2. Wait while jar will automatically detect the changes and resets
3. Close the "Config" card and then the "Edit" window

MZD CLUB TIP JAR

GROUP JOINER / GIVER MENU

Setting Up A "Group Joiner/Giver Menu" For Others To Access

You can easily add a menu for your tippers or guests to access when they touch your Tip Jar. This will enable them to join your group, look at your website, receive landmarks, note-cards or even gifts. By default, this menu will not appear until you add something to give, a group to join or a website to view. To add items, follow the steps below.

Adding A "Group Joiner" Button

To add a button to allow your guests to join your group. To add this button, you need to simply edit the "Config" note-card in the Tip Jars inventory.

To do this, do the following:

1. Right click on your tip jar and select "Edit"
2. Select the "Contents" tab
3. Open the "Config" note-card you will find there
4. Find the line "GroupKey=00000000-0000-0000-0000-000000000000"
5. Change after the "=", to your own Group Key (UUID).
   • To find your group UUID, some SL viewers will show it in your group info window, it will appear at the top of the window. When doing this, do not leave a gap after "="
   • If the UUID doesn't appear in your viewer, you can collect a free group UUID display from our store, on Marketplace, or by sending a note-card to Marcus Zenoria.
6. Now, find the line "GroupButton=DISABLED"
7. Change after the "=", to the text you want to appear on your "Join Group" Button (9 Character Limit). When doing this, do not leave a gap after "=". Leaving this set to "DISABLED" will disable this feature.
8. Click on the "Save" button on the note-card
9. Wait while jar will automatically detect the changes and resets
10. Close the "Config" card and then the "Edit" window

Adding A "Web Link" Button

To add a button to allow your guests to visit your website. To add this button, you need to simply edit the "Config" note-card in the Tip Jars inventory.

To do this, do the following:

1. Right click on your tip jar and select "Edit"
2. Select the "Contents" tab
3. Open the "Config" note-card you will find there
4. Find the line "WebButton=DISABLED"
5. Change after the "=", to the text you want to appear on your "Web Link" Button (9 Character Limit). When doing this, do not leave a gap after "=". Leaving this set to "DISABLED" will disable this feature.
6. Now, find the line "WebURL=http://www.mywebsite.com"
7. Change after the "=", to the URL of your website. When doing this, do not leave a gap after "="
8. If you want to change the text used for the window that appears when this button is pressed, find the line "WebDialog=Hey thanks for your interest! Would you like to visit my Website?"
9. Change after the "=", to the text you would like to appear. When doing this, do not leave a gap after "="
10. Click on the "Save" button on the note-card
11. Wait while jar will automatically detect the changes and resets
12. Close the "Config" card and then the "Edit" window

GROUP JOINER / GIVER MENU

Adding A "Giver" Button

You can add up to two buttons to give out Landmarks, Note-Cards or Gifts. To add these features to your tip jar menu for your guests follow the steps below.

To do this, do the following:

1. Right click on your tip jar and select "Edit"

2. Select the "Contents" tab

3. Open the "Config" note-card you will find there

4. Find the line "GiverButton1=DISABLED" or "GiverButton2=DISABLED"

5. Change after the "=", to the text you want to appear on your "Giver" Button (9 Character Limit). When doing this, do not leave a gap after "=". Leaving this set to "DISABLED" will disable this feature.

6. Now, find the line "GiverItem1=DJ Info Pack" or "GiverButton2=Our Shop"

7. Change after the "=", to the name of the object that you want the tip jar to give. You must enter the name of the Landmark, Note-card or Gift item that you wish to give exactly as it appears on the item. When doing this, do not leave a gap after "="

8. Click on the "Save" button on the note-card

9. Wait while jar will automatically detect the changes and resets

10. Now drop the item into the Tip Jar "Contents" that you wish to give out.

11. Close the "Config" card and then the "Edit" window

[Top]

Customise User Menu

By default the menu that appears when one of your tippers or guests touches your Tip Jar reads "To tip me, please right click my Tip Jar and select PAY". If you want to customise this, you can.

To do this, do the following:

1. Right click on your tip jar and select "Edit"

2. Select the "Contents" tab

3. Open the "Config" note-card you will find there

4. Find the line "MenuMessage=To tip me, please right click my Tip Jar and select PAY"

5. Change after the "=", to the text you want to appear on your "User Menu". When doing this, do not leave a gap after "="

6. Click on the "Save" button on the note-card

7. Wait while jar will automatically detect the changes and resets

8. Close the "Config" card and then the "Edit" window

[Top]

MZD CLUB TIP JAR

SHOUTCASt iNtEGRAtiON

SHOUTcast Features

This tip jar features SHOUTcast integration. If you are a DJ or work in a club using a SHOUTcast stream, then you can enable this feature. This will display the current music track above the tip jar and also announce it in Local Chat if you wish. To set this up do the following:

Set-up Stream Address

First, you need to enter the SHOUTcast stream address in the "Config" note-card in the tip jar.

To do this, do the following:

1. Right click on your tip jar and select "Edit"
2. Select the "Contents" tab
3. Open the "Config" note-card you will find there
4. Find the line "SHOUTcastURL=http://my.stream.address.here".
5. Change after the "=", to your own stream address
6. When doing this, do not leave a gap after "=" and also remove any trailing "/" from the address. So, if your stream address is "http://mystream.com:8080/", the finished line should read "SHOUTcastURL=http://mystream.com:8080"
7. Click on the "Save" button on the note-card
8. Wait while jar will automatically detect the changes and resets
9. Close the "Config" card and then the "Edit" window

Now you have entered your SHOUTcast stream address, you need to enable the service on the tip jar.

Enable SHOUTcast:

1. Touch your tip jar
2. Click on: "Admin"
3. Click on: "Jar Config"
4. Click on: "SHOUTcast"
5. To turn on or off your SHOUTcast features click on the "S-Cast On" or "S-Cast Off" buttons

Turn on SHOUTcast Announcements:

1. Touch your tip jar
2. Click on: "Admin"
3. Click on: "Jar Config"
4. Click on: "SHOUTcast"
5. To turn of the broadcasting of the playing track in Local Chat click on the "Say On" or "Say Off" button

M2D CLUB TIP JAR

TIP JAR SPLITTING

Setting Up Your Tip Jar To Pay A Percentage (Split) To Another Avi

By default your tip jar will pay 100% of all tips to the person logged onto the tip jar. Should you wish to take a percentage for yourself or another Avi, you need to simply edit the "Config" note-card in the Tip Jars inventory.

To Do This, Do The Following:

1. Right click on your tip jar and select "Edit"

2. Select the "Contents" tab

3. Open the "Config" note-card you will find there

4. Find the line "split_uuid=00000000-0000-0000-0000-000000000000"

5. Change after the "=", to the UUID of the Avi who is to receive the split of tips. When doing this, do not leave a gap after "=".

    • To find the Avi's UUID, some SL viewers will show it in the persons profile window, it will appear at the top of the window.

    • If the UUID doesn't appear in your viewer, you can collect a free Avi UUID display from our store, on Marketplace, or by sending a note-card to Marcus Zenoria.

6. Find the line "split_percentage=0"

7. Change after the "=", to the percentage of the split (For 10% please enter 10). When doing this, do not leave a gap after "=". Leaving this at 0 will disable the split.

8. Click on the "Save" button on the note-card

9. Wait while jar will automatically detect the changes and resets

BACKING UP TIP JAR SETTINGS

Best Practices

1. Read the relevant instructions **CAREFULLY** before editing your Config note-card

2. Before you make any changes to your Config note-card, drag a copy of the existing one to your inventory as a backup. If you make a mistake or get an error, delete the one in the tip jar, and drag your backup back into it.

3. Each Note-card setting consists of the setting name and the setting itself. The name of the setting and the following '=' sign MUST NOT be changed.

4. When entering a setting, do not leave a space between the '=' sign and your entry. If unsure, look at the default entry before you start.

5. Always keep a back-up copy of the Config note-card, in case of accidents!

UPDATING TIP JAR

Installing Updates

Your Tip Jar Box comes with free updates for life. If any upgrades are released, you will be entitled to receive them.

Your Tip Jar automatically checked for updates each time it is rezzed, however, you may prefer to check for updates manually. You can do this very easily, by standing next to your Tip Jar and typing **/12update** into local chat. Your Tip Jar will now search for updates and any new ones will automatically be sent to you.

Follow the instructions that arrive with the update.
